Part 2: Translation (from English to Chinese 25%)

The Ministry of Education has set the goals of cultivating Taiwanese students to be equipped with five core abilities (5C) for the 21st century. These core abilities cover communication, collaboration, complex problem-solving, critical thinking, and creativity. The plan is to introduce new digital learning patterns into elementary and junior high schools to promote changes in the current reading curriculum. It is believed that these key abilities will facilitate the students to become better world citizens in the future.

Part 3: Paragraph Writing (25%)

Please write a paragraph elaborating the important features or qualities for a public servant.
