Can you stop a sneeze? A sneeze usually starts 41 a tiny bit of dust. The dust irritates your nose, sending a message to your brain, which orders muscles in your nose, chest, abdomen and neck to work together to 42 the dust. You sneeze, which makes dust fly out of your nose 43 100 mph. A sneeze can send saliva flying 44 15 feet from your mouth. You can prevent a sneeze by pinching your nose, but you shouldn't try to stop 45 after it has started because it puts an extraordinary amount of pressure on your ears.

What makes a product “excellent?” To answer this question, we can use two companies as examples. One of them is the Steinway & Sons Pianos. This company has been making pianos the same way now for over 150 years. The builder pays attention to every detail, _____ 46 _____ the best possible quality _____ 47 _____ the time necessary to produce it. All 12,000 parts of the piano are installed by hand. Each piano _____ 48 _____ a year to make. Another company is Rolls-Royce automobiles. Their cars of the early 1900s performed much better than other cars of their time. One great example was the “Silver Ghost.” It ran _____ 49 _____ smoothly that it hardly made a noise. _____ 50 _____, Rolls-Royce cars and Steinway pianos are expensive. Excellence in all things comes at a price. But the quality is what lasts over time. As Henry Royce once said, the quality remains long after the price is forgotten.
